MEMORANDUM FOR : Chief, Security Branch, Development Projects Division

SUBJECT : [REDACTED] Communications Link

REFERENCE : a. Memo for the Record from ASST CH/DPD, Dated 26 April 1962; Subject: "Conversation with Lt. Colonel Howard and Captain Lisciotti Regarding [REDACTED] Communications Link" [REDACTED]

b. Memo for DD/R from General Curtin, Dated 24 April 1962; Subject: Communications Link [REDACTED]

1. I am returning both of the references to you at this time with a request that you case officer this problem through to a conclusion, which in my opinion would be a response for Colonel Beerli's signature to General Curtin's letter of 24 April. I should like to call your attention to the guidance furnished by Dr. Scoville in the form of his hand-written note attached to Reference a.

2. I consider this fundamentally a problem of security policy as opposed, let us say, to communications security, but I believe you should get together with [REDACTED] as appropriate in framing your conclusion. I must admit to a certain degree of confusion over the term "record material" used in subparagraph g of General Curtin's letter, and I would ask that you clarify this either with Colonel Howard or Captain Lisciotti before taking a position for or against. In view of the short time between now and the next ARGON shot, I would like to ask that you make this a matter of high priority and feel free to confer with me at any point you feel it is indicated.
